

KLOVE has served so many wonderful purposes for me as a resident over the years. KLOVE informs me of local events, weather, news, etc. and is encouraging as well. If KLOVE were to be displaced it would have a terrible effect on the community by taking away the only always positive radio station in this town. KLOVE is informative, upbeat and encouraging and those services are definitely in the Public's interest especially with all the road rage we have today. Please do not take KLOVE off the air or displace it. Thank you for your consideration.
